

HIGH-PRESSURE JETTING TRAILER

TO CLEAN AND UNBLOCK SEWERS AND DRAINS QUICKLY AND EFFECTIVELY

COBRA super compact trailer is developed and manufactured by *KanRo Ltd*[®]. It is powerful high-pressure jetting trailer designed for professional companies dealing with cleaning the sewerage network, as well as individuals and small companies. A very functional device with small dimensions, intended for hydrodynamic cleaning of sanitary, rainwater and industrial pipes. The device can be used everywhere where big cleaning cars cannot be reached.

COBRA can be transported by all types of vehicle and on a standard driving license, because the DMC of the trailer is only 750 kg. The trailer has a 400-liter water tank, a high-power engine, a high-quality pump and pressure hoses. This combination will satisfy the needs of the most demanding customers. Despite the compact dimensions, it was also possible to fit the hand washing container and tool boxes. All of this, makes it probably the best high-pressure jetting trailer to clean the sewage network on the market.

AREAS OF APPLICATION

- ✓ cleaning the sewage network
- ✓ cleaning rainwater drainage
- ✓ cleaning drainage pipes
- ✓ pressure washer
- ✓ surface disinfection (with street washing beam)

SPECIFICATION

DRIVE	Petrol engine 22 HP	Petrol engine 35 HP
PUMP	UDOR triplex plunger pump fitted with ceramic plungers; pressure regulator and manometer	
PUMP EFFICIENCY	150 bar 50 l/min	150 bar 75 l/min
WATER TANK	with a capacity of 400 l , equipped with an overflow of water	
PANEL CONTROL	panel control located in the device; safety switch	
REMOTE CONTROL	remote radio control - OPTION	
HIGH-PRESSURE HOSE	hose 60 m long, inside diameter of the hose NW 13 mm with coupling ½ "	
HIGH-PRESSURE HOSE REEL	hose reel with hydraulic drive with smooth, stepless speed control in both directions and the free-running position with the rotating union and three-way valve, hose reel is equipped with a guide for even placement of the hose	
FILLING HOSE	reel with filling hose length 50 m	
APPLICATION RANGE	pipes diameter 400 mm	pipes diameter 500 mm
STANDARD EQUIPMENT	<ul style="list-style-type: none"> ✓ spraygun and lanc ✓ standard nozzle open ✓ standard nozzle blind ✓ rinsing nozzle "GRENADE" ✓ piercing nozzle "QUATTRO" ✓ protection against running dry ✓ protection against working without oil ✓ winter circulation 	
OPTIONAL EQUIPMENT	<ul style="list-style-type: none"> ✓ street high pressure washing beam for cleaning or disinfection surfaces ✓ second high pressure hose instead of the filling hose 	
CHASSIS	light trailer GVW 750 kg without brakes, leaf springs, wheel size 13". The trailer and the device constitute an integral whole.
